Re: Head lice (nits) in Year 5

Dear Parents/Carers,

I am writing to let you know that we have a reported case of head lice (nits) in 5K. Head lice are very common among primary school children and are not a sign of poor hygiene. They spread easily through close contact, so we ask that you check your child's hair carefully this week and treat if necessary.

If you do find evidence of head lice, please begin treatment promptly and continue regular checks to prevent further spread. Children do not need to stay off school once treatment starts.

Thank you for your support.

Kind regards,
Miss Kentish & Miss Leek
